SILKEN

VISUAL CONTACT OUTSIDE

COLD CUT, CRUSH CUT OR
ULTRASONIC

FLAME RETARDANT

MANUFACTURED IN THE EU

INDOOR AIR QUALITY CERTIFIED

TECHNICAL PROPERTIES		
Fabric Characteristic	Standard	
Composition	-	80 % PVC + 20 % PES
Weight (g/m ²)		337 +/- 5 %
Yarn diameter (mm)	Internal method	0.30
Openness factor (%)		Approximately 14 %
Thickness (mm)	Internal method	0.56 +/- 5 %
Light fastness	EN ISO 4892-2 (exterior) (Grey scale level)	5 4 White
Light fastness	EN ISO 105 B02-2002 (interior) (Blue scale level)	8 7 White
Fire Classification*	EN 13773:2003	Class 1*
Antibacterial activity	ASTM E 2180-18	Microorganism growth inhibition
Tearing resistance (daN)	EN ISO 13937-3:2001	Warp: 3.9 Weft: 2.7
Breaking strength (daN/5cm)	EN ISO 13934-1:1999	Warp: 138.6 Weft: 82.6
Stretch (%)	EN ISO 13934-1:1999	Warp: 25 % Weft: 18 %
Roll size	-	Length: 25.5 lm +/- 5 % Width: 250 cm
Recycled content		2 % Pre-consumer
Printable		Yes
		Indoor use only
Environmental & health properties	GREENGUARD GOLD Low VOC emission	
Manufacturing properties	Always store rolls horizontally Cold-cut, crush-cut or ultrasonic Welding: Thermo or ultrasonic Manufacturing direction: Blinds can be manufactured 'drop to length' or railroaded. BUT do not place blinds manufactured in different directions in the same area ,as this difference will be spotted Manufacture panel blinds only 'drop to length' <div style="text-align: center;"> </div>	
Maintenance	Periodic maintenance: remove dust with vacuum cleaner, dry cloth or compressed air In case of accumulated dirt, it can be cleaned using a sponge or soft brush dipped in soapy water or spray cleaner. In both cases the fabric should be rinsed, leaving the curtain to dry open Under no circumstances should solvents or abrasives that could damage the fabric coating be used, so care should be taken to avoid paint, varnish or ink stains <div style="text-align: right;"> </div>	

*Models containing Crystal, Gold, Silver or Copper yarn not included in the EN 13773 fire certification
